

FOR THE BIRDS

BIRDHOUSE COMPETITION JUDGING CRITERIA FORM

The following six (6) areas are to be graded on a scale of one through ten (1-10) for a maximum total of sixty (60) points. All jury reviews for each submission will then be calculated as an average to minimize statistical anomalies. This averaged score is the final score for the submission and is the basis for ranking against all other submissions. The final score shall determine the winning prizes of 1st, 2nd, and 3rd places in numerical ranking. Any additional comments regarding the submission or judging for the submission may be made on the back of this sheet.

Form & Materials

Percentage of sustainable materials (1pt per 10%)

Points: 1 2 3 4 5 6 7 8 9 10

Creativity of use of materials

Points: 1 2 3 4 5 6 7 8 9 10

Execution & Quality

Quality of construction and appearance

Points: 1 2 3 4 5 6 7 8 9 10

Functionality, Practicality, & Ease to Reproduce

Space for nest, ability to be inhabited, ability to withstand climate and elements, ability to be duplicated/mass produced

Points: 1 2 3 4 5 6 7 8 9 10

Innovation & Overall Design

Innovative features, overall composition and aesthetics

Points: 1 2 3 4 5 6 7 8 9 10

Design Intent Narrative

What was the inspiration for the design and how do materials and overall design reinforce that concept?

Points: 1 2 3 4 5 6 7 8 9 10

Total Points: _____
